

TCM Forklift Part

TCM Forklift Parts - Forklift trucks are a major player in the material handling field of every global industry. Transporting industrial goods takes place each day on our busy planet. First innovated as industrial vehicles during the 1930s in the U.S., forklifts gained recognition following World War II during the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these machines spread internationally.

In nineteen forty nine, founded by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was recognized. Currently the company is simply known as TCM Corporation. Throughout the years, TCM forklifts have become an international leader in forklift manufacturing and have built a solid reputation in the trade. TCM started building lift truck manufacturing sites outside of Japan during the 1980s and is presently engaged in forklift manufacturer at three foreign factories in the United States, Europe and China.

With over 50 years of accumulated technology and expertise, TCM has been proudly making numerous models of industrial forklifts, making their models known all over the globe. With a strong and energetic staff, TCM has been able to constantly work towards becoming a future leading material handling company.
