

Advance-Nilfisk Part

Advance-Nilfisk Parts - Imagine how long and tiresome it will actually be to tidy up right after a party, without assistance from equipment. Not too long ago, the dust from upholstery and carpets had to be beat out of them manually; brushes, cleaning cloths and brooms were the top cleaning products during that time.

The man who founded Nilfisk-Advance, P.A. Fisker, began as an electrical engineer who liked to work on electrical motors. After establishing his business in the year 1906, he started to make motors to drive machine tools, drills, coffee grinders and fans. Mr. Fisker's vision from the beginning was to own an international company marketing goods worldwide.

The Nilfisk C1 was a revolutionary breakthrough in the cleaning trade. Mr. Fisker invented a incredible, ground breaking vacuum cleaner which could be operated by one person because it only weighed 17.5 kilos! This invention came in a time where various cleaning machines were massive and needed at least 4 operators, hence, the Nilfisk C1 changed everything and developed the way we clean forever. The genius behind these very first cleaning machines remains unparalleled. Cleaning machines provide a brilliant solution to an ongoing problem; things get filthy and need to be cleaned frequently, without a lot of effort.

Slowly, the business Nilfisk-Advance developed all through the years. During the the early part of the nineteen eighties the company grew more rapidly when the business became a part of the NKT Group. With new owners on board, they concentrated on driving Nilfisk-Advance forward within the industry, aspiring to be an active worldwide player in making professional cleaning equipment. Nilfisk-Advance is presently located in every part of the globe due to steadily acquiring many small companies in order to grow their product portfolio and presence in new markets. They are really proud to provide different cleaning solutions to suit each and every requirement.
